There is no line so handsomely equipped for Through Passenger Service as "The Northwestern Line."—C., St. P., M. & O. Ry.

All well posted travelers between

THE

Twin Cities and Chicago take this line—particularly favoring the "Vestibule Limited," the only train between Chicago and St. Paul that is lighted with Gas and which carries the finest sleeping cars and coaches ever built, and also all classes of passengers, without extra fares. On the Lake Superior portion of the line, between Minneapolis, St. Paul and Duluth, and St. Paul and Ashland, Pullman Sleepers are run on night trains, and reclining chair cars on day trains.

NORTHWESTERN

Fast through trains with Pullman Sleeping Cars are also run between Minneapolis, St. Paul and Kansas City, via Sioux City. Day trains between St. Paul and Sioux City have elegant parlor cars. Dining cars are run on all through trains over this line between Minneapolis, St. Paul and Chicago. Besides being the best

LINE

Between these principal cities, the Chicago & Northwestern System of lines, composed of the Chicago, St. Paul, Minneapolis & Omaha, Chicago & Northwestern, and Fremont, Elkhorn & Mo. Valley Rys (all advertised as "The Northwestern Line"), offers the quickest means of reaching all cities and towns in the territory intersected by it. In connection with Union Pacific the C., St. P., M. & O. Ry. also forms a new through line to the Pacific Coast. INTRODUCTORY.

In placing this, the Seventh Biennial Volume of the WISCONSIN STATE GAZETTEER AND BUSINESS DIRECTORY in the hands of its patrons, the publishers do so, confident that it will meet the requirements of a large portion of the public, and are satisfied to let it rest on its merits as a work of its class, feeling certain that no more appropriate introduction can be offered than the assurance that nothing has been neglected on their part to secure the utmost thoroughness and accuracy. Very few people who refer to a directory have any adequate idea of the many difficulties encountered by the publishers in the issue of a work of such magnitude as a State Gazetteer, while the utility of a reliable one is undoubted. To secure to the business men of Wisconsin such a work is the constant aim of the publishers, and the eagerness with which the Gazetteer is looked for demonstrates conclusively that the work has become a permanent necessity, while a glance at the large number of advertisements scattered throughout its pages will give some idea of the high regard in which it is held as a medium of this description.

The earlier pages are devoted to descriptive and statistical matter relating to Wisconsin; this is followed by a list of all the postoffices in the State, with a description of the geographical position of each, the population of each place, leading business interests, nearest accessible shipping point when off a railroad, nearest banking point, religious and educational advantages and other useful facts regarding it; following this is an alphabetically arranged list of all persons engaged in business there, and the whole is supplemented by a voluminous Classified Business Directory, comprising lists of all trades, professions and pursuits, with name and postoffice address, compiled and arranged under the heading to which each belongs.

No material used in any previous edition has been embodied in this issue of the work. Everything, both as regards business data and descriptive matter, has been procured anew, without regard to the enormous expense thus entailed. The sketches have been carefully rewritten and much additional information added, while a reference to the Classified Directory will show a far more complete and valuable list than has before appeared.

Sincere thanks are tendered those who by their patronage and support materially aided and encouraged the publishers in their work, and also to those who kindly assisted in collecting the information required in the preparation of this volume; and, in conclusion, the publishers would say that nothing shall be wanting on their part to maintain the high standard already attained, and they confidently hope to meet with the recognition the work deserves.

CAUTION.

Pay no money in advance to itinerant Directory Canvassers. We are led to mention this from the fact that certain parties have been fraudulently using our publications as specimens, and by that means collecting moneys in advance. Before signing an order, see that it has the name of R. L. POLK & CO. printed thereon. We ask no payment until the work is delivered, and our solicitors have strict orders not to take payment for either advertisements or subscriptions.

No jury shall be summoned for the terms in February and July unless specially ordered. Every term in the counties of Fond du Lac, Sheboygan and Manitowoc shall

be a special term for the whole judicial circuit, at which any and all business may be done arising or pending in any county in said circuit, which might be done at a general term for the county in which said business arises or is pending, except the trial of issues of fact by a jury. The terms specified in section 2 shall be a continuation of all terms in the circuit which are not finally adjourned, and the court at the terms mentioned in section 2 shall have the same jurisdiction as to all judgments, orders or proceedings made or entered in any county which it would have if holding the term in the county at which such judgment, order or proceedings was made or taken, including the power to vacate, correct or otherwise change the same in the mode provided by law. The circuit court shall always be open for the transaction of all business in each of the counties in said circuit, from the beginning of one term until the beginning of the next term in the same county, and an order or direction for the adjournment of any term from day to day or to a specified day, and an entry thereof, shall not be necessary to the validity of any judgment, sentence, order or proceeding therein; but when no judge shall attend to hold court on the first day or any subsequent day thereof, the term shall stand adjourned from day to day until a judge authorized to hold the same shall attend. No term of court in said circuit shall be at an end until an express order for final adjournment is made and entered, and one term may be adjourned beyond the beginning of the next term in the same county.—*Chapter 5, Laws 1851.*

WISCONSIN COLLECTION LAWS.

ASSIGNMENTS.—Voluntary assignments may be made by debtor for benefit of general creditors, under statutory formalities. No preferences allowed except wages of employes earned within six months prior thereto if assignor makes no preference; three months wages preferred by law. Release not granted. Any preference made by debtor by the sale of property, mortgage, or other security, within sixty days prior to date of assignment, shall be void and of no effect, *provided* the party benefited had reasonable cause to believe such debtor insolvent, and by confession of judgment within same period, void *absolutely*. If suit for recovery on account of preference or fraud is not brought by assignee within sixty days after assignment, any creditor may sue therefor upon giving bonds to assignee of \$1,000.

ATTACHMENT may be issued at any time before judgment, in all actions on contract, express or implied, where plaintiff shows by affidavit that fact, and that the debt exceeds \$50, and that the defendant has good reason to believe one of the following cases to exist: That defendant has absconded or is about to abscond from the State, or is concealed therein to the injury of his creditors; that he has assigned, disposed of, or concealed, or is about to, any of his property, with intent to defraud his creditors; that he has removed or is about to remove any of his property out of the State, with like intent; that he fraudulently contracted the debt or incurred the obligation for which this action is brought; that he is a non-resident or it is a foreign corporation; that he had fraudulently conveyed or disposed of his property, or part of it, to defraud his creditors. Attachment may also be made for debt to become due, on filing similar affidavit, and giving undertaking for three times amount of claim. Attachment may issue in Justice Court, upon grounds nearly identical, where debt exceeds \$5.

CHATTEL MORTGAGES are valid between the parties thereto, but void as against any other persons, unless the possession of the mortgaged property be delivered to and retained by the mortgagee, or unless the mortgage, or a copy thereof, be filed with the clerk of the village, town, or city where the mortgagee resides, or if he is a non-resident, where the property is situated at the time of making the mortgage. Such chattel mortgage ceases to be valid, except as between the parties, at the expiration of two years, unless, within thirty days next preceding the expiration of the two years the mortgagee or his agent make and annex to the mortgage, or a copy thereof, on file, an affidavit setting forth the interest of the mortgagee in the property mortgaged. The effect of such affidavit renews the force of the mortgage for two years. Similar renewals may be made at the end of each two years. It is a misdemeanor to sell or dispose of chattels mortgaged, with intent to defraud. No specified time in which mortgaged property must be sold to pay debt. Chattel mortgage upon household furniture or exempt chattels of married man invalid without signature of wife witnessed by two witnesses.

DEEDS.—A deed of quit claim and release of the form in common use is sufficient to pass all the estate which the grantor could convey by deed of bargain and sale. No covenant is in any case to be implied in any conveyance. Deeds executed within this State, of lands or any interest of lands therein, must be executed in the presence of two witnesses, who shall subscribe their names to the same as such, and the persons executing must acknowledge the execution before any judge or court commissioner, clerk of a circuit court, county clerk, notary public, or justice of the peace; and the officer taking the acknowledgment must indorse a certificate of the acknowledgment, and the true date of making it under his hand. A scroll answers for a seal.

EXEMPTIONS.—Library, household furniture, tools, \$200; firearms, \$50; necessary team, cattle and utensils; 1 year's provisions; tools or stock in trade of mechanic, miner, or other person, \$200; library and implements of professional man, \$200; printing material, presses, etc., \$1,500; homestead, in country, 40 acres, or in town plat, one fourth of an acre. The earnings of all married persons having a family dependent

upon them for support, for three months next preceding the issue of any process, to the amount of \$60, only for each month in which such earnings are made or secured. No personal property is exempt as against any debt remaining of its purchase price.

INTEREST.—Legal, 7 per cent.; by contract in writing, 10. Usury forfeits all interest.

JUSTICE'S JURISDICTION.—\$200, may enter judgment by confession to \$300.

JUDGMENTS.—Judgments of the circuit court become a lien on all real estate of the judgment debtor within the county, and from the date of its being docketed in the clerk's office; this lien holds for ten years. A transcript of the judgment of a justice of the peace may be docketed in the circuit court clerk's office, and becomes then a lien on real estate, and is regarded as a circuit court judgment for its enforcement and collection. A transcript of the docket of a judgment in any circuit court clerk's office may be filed and docketed in any other county, and becomes a lien on all real estate of the judgment debtor in any county where docketed, from that date, and is enforced by execution issued from the county where judgment was rendered.

LIMITATION OF ACTIONS.—On contracts not under seal, 6 years; judgments of courts within the State and on sealed instruments, cause accruing within the State, 20 years; foreign judgments and specialties, cause accruing without the State, 10 years; recovery of bonds, 20 years.

MARRIED WOMEN retain all property for their exclusive use and benefit which is acquired from any source except their husband, and may convey it and do business as if unmarried. Widow is entitled to dower of one-third in all lands owned by husband at any time during marriage, unless lawfully barred.

MORTGAGES are executed precisely as deeds, except the wife need not join in a purchase money mortgage to bar dower. Any conveyance, however, in whatever form, will be held a mortgage on familiar equity principles, if in reality a security for debt. If a power of sale be inserted, they may be foreclosed by advertisement. One year's redemption is allowed after sale in such cases, but the common and better practice is to foreclose by suit in Circuit Court, and after sale, which cannot take place until after the expiration of one year's redemption; after judgment no redemption is allowed. Redemption before sale must include 10 per cent. interest from date of judgment. A reasonable solicitor's fee is allowed in addition to taxed costs. No strict foreclosures allowed of mortgages. No mortgage or sale of a homestead valid unless the wife joins.

PROOF OF CLAIMS SENT FOR COLLECTION.—It being necessary to sue in the name of the real party in interest, creditors sending claims for collection should give their names in full. In case of a firm, full name of the individuals composing the firm should be given, and if creditor is a corporation, that fact should be stated.

REDEMPTION—Of lands sold under execution, 1 year, or by subsequent creditor, 15 months; mortgage, 1 year; taxes, 3 years.

REVIVOR—Part payment or new promise in writing, if by one joint debtor, revives the debt only as to him.

STAY OF EXECUTION.—Only on justice's judgments, \$10 to over \$50, exclusive of costs, one to four months.

WITNESS.—Party in interest may be, unless opponent is dead.

A GREAT RAILWAY

The Chicago, Milwaukee & St. Paul RAILWAY COMPANY

Now Operates over 6,100 Miles of Thoroughly Equipped Road in
ILLINOIS, WISCONSIN, NORTHERN MICHIGAN,
MINNESOTA, IOWA, MISSOURI,
SOUTH AND NORTH DAKOTA.

Each recurring year its lines are extended in all directions to meet the necessities of the rapidly populating sections of country East, Northwest and Southwest of Chicago, and to furnish a market for the products of the Greatest Agricultural and Stock Raising Districts of the World.

In Illinois it operates 317 Miles of Track, in Wisconsin 1,636 Miles,
in Northern Michigan 99 Miles, in Iowa 1,631 Miles,
in Minnesota 1,115 Miles, in South Dakota 1,022 Miles,
in North Dakota 113 Miles, in Missouri 140 Miles.

And the end is not yet. It has terminals in such large cities as

Chicago, Milwaukee, La Crosse,
St. Paul, Minneapolis, Fargo,
Sioux City, Council Bluffs, Omaha,
Kansas City and St. Joseph, Mo.

And along its lines are hundreds of large and small thriving cities, towns and villages. Manufacturing interests are cultivated, and all branches of trade find encouragement. The Railway Company has a just appreciation of the value of its patrons, and its magnificent earnings are the result of the good business tact which characterizes its management of its affairs.

The popularity of the line is attested by the fact that notwithstanding the strong kind of competition of old and new lines, the CHICAGO, MILWAUKEE & ST. PAUL RAILWAY continues to carry the greater part of the business between CHICAGO, MILWAUKEE, ST. PAUL and MINNEAPOLIS. It is the best routinized route between CHICAGO, COUNCIL BLUFFS and OMAHA, and to all from all points in WISCONSIN, MINNESOTA, DAKOTA and IOWA, and the KANSAS CITY AND ST. JOSEPH LINE has taken equal rank with the older line leading to and from the Southwest.

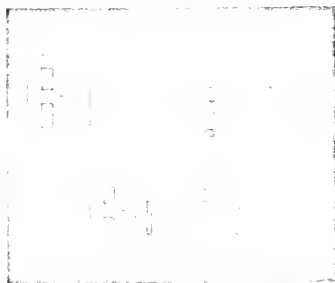

On all its through lines of travel the CHICAGO, MILWAUKEE & ST. PAUL RAILWAY runs the most perfectly equipped trains of

Sleeping, Parlor and Dining Cars and Coaches.

The through trains on all its lines are systematically heated by steam. No effort is spared to furnish the best accommodations for the best money, and, in addition, patrons of the road are sure of courteous treatment from its employees.

ALMA. Dating its settlement from 1852, incorporated as a village in 1868, and as a city in 1885, is situated on the east bank of the Mississippi river, near the mouth of the Buffalo river in Buffalo county, of which it is the judicial seat, and on the C. B. & N. R. R., 30 miles north-west of Winona, Minn., 306 northwest of Chicago, 221 northwest of Milwaukee, 80 southeast of St. Paul. In addition to the usual number of special and general stores, blacksmith shops, etc., the city now contains 4 churches, representing the German, Methodist, Lutheran, Reform and Catholic denominations, a high school employing 7 teachers and having a total enrollment of over 500 scholars, a public hall for entertainments and meetings capable of seating 700, a bank, a steam saw mill, a brewery, a large flouring mill and a number of secret societies. A well equipped and efficient fire department protects the city, and a weekly newspaper, the *Buffalo County Journal* (Rep.), an ably edited and popular sheet, supplies the news to the people of Alma. Steamers run to St. Paul, St. Louis, La Crosse and all intermediate points. Alma is a prosperous place and improving steadily. The new court house, a fine and substantial building, gives evidence of the progressive spirit of the citizens. Wheat, lumber, live stock and dairy supplies are the principal shipments. No bonded debt. Assessed valuation of real and personal property, \$281,649. Population, 1,425. Mail, daily. Exp., Am. Tel., C. B. & N. J. W. De Graff, postmaster.

APPLETON. The judicial seat of Outagamie county, is a prosperous and rapidly increasing city, located in the south central portion of the county, on the Lake Superior br. of the C. & N. W. Ry, on the M., L. S. & W. Ry, and on the Appleton br. of the M. & N. R. R., 125 miles north of Chicago, and 100 northwest of Milwaukee. It is on the grand chute of Fox river, and the vast body of water passing through here from Lake Winnebago is said to be over 15,000 horse power, to utilize which dams and canals have been constructed at all the rapids on the river. The canal is under the control of U. S. government, and large steamboats can pass from Green Bay to Lake Winnebago. The growth of Appleton, which has now become one of the most important manufacturing points in the State, has been due, in a great measure, to this vast natural power. Fox River has 50 feet fall within the city limits. Among the more prominent manufactures are paper and pulp mills, wooden, and planing mills, sash, door and blind factories, a hub and spoke factory, 2 towel factories, 2 breweries, large lime kilns, foundries and machine shops, toy and chair factories, 2 farm implement factories, iron works, novelty works, a grain elevator, etc., a large chemical pulp mill is in course of construction. The city has broad and well paved streets, is lighted by gas and electricity, has an electric street railway, the Holly system of water works, a well equipped and efficient fire department, telephone exchange, 2 banks, first-class hotels, the Lawrence university, good schools, and churches of

ASHLAND. An important city on Chequamegon or Ashland bay, an inlet of Lake Superior in the northwestern corner of Ashland county, of which it is the judicial seat. It is the railroad center of Northern Wisconsin, the following roads meeting there: The Wisconsin Central Line, the N. div. of C., St. P., M. & O. Ry., the N. P. R. R., and the M., L. S. & W. Ry., 214 miles from Milwaukee, 184 miles from St. Paul, 165 from Eau Claire, and 19 miles from Hurley. The D., S. S. & A. R. R. will also shortly be completed to this point. During the season communication is had by boat with all points on the great lakes. The principal manufacturing industries are represented by the Ashland Iron and Steel Works, employing 350 hands, with a plant costing \$300,000, and the largest charcoal blast furnace in the world, the Novelty Iron Works, the North Star Iron Works, operated by the Parish Mfg. Co., the Ashland Boiler Works, the Superior Lumber Co., 5 saw mills with a capacity of 90,000,000 of lumber, 4 planing mills and sash and door factories, the machine shops of the M., L. S. & W. Ry., a flouring mill, The Ashland Box Factory, several cigar factories, stone quarries, brick yards, and a large number of shops of various kinds, which give employment to a large num-

ber of mechanics Among the wholesale houses may be mentioned McMillan Bros. Co., Armour Packing Co., Swift & Co., Ashland Lime, Salt and Cement Co., Ashland Commission Co., and J. B. Matthews & Co., these all being located on the railroad adjacent to the W. C. depot. There are 3 National banks, the First, Northern, and Ashland, and the Security Savings Bank. The insurance business is also well represented by the regular Board companies, and there are a large number of live and energetic real estate agents. The city contains a great number of hotels of all classes, among which may be mentioned the far-famed Chequamegon, the third largest hotel in the State, and one of the finest summer resorts in the Northwest, which is during the season patronized by thousands of health and pleasure seekers from all parts of the country. There are two daily newspapers, the *Ashland Press* (Rep.) and the *Ashland News* (Dem.); also two weeklies, the *Herold* (German) and the *Ashland Times* (Ind.), and among the literary institutions may be mentioned the Vaughn Library. The city supports several excellent graded and primary schools, also a high school. In addition to the public schools there is also a Roman Catholic school. The Ashland Business Men's Association occupies fine apartments in the First National bank building, and its membership comprises nearly all the prominent men of the city. There are ten churches located here, viz: Episcopal, Methodist, Baptist, Congregational, Presbyterian, Roman Catholic, Norwegian, Scandinavian, Swedish Baptist and Swedish Lutheran. Nearly all the different secret societies are well represented. The city is supplied with water works, gas and electric light plants, and a street railway. There is also a larger theater and several public halls. The city shows a good healthy growth. The iron ore, the product of the Gogebic Iron Range, which is situated from thirty to fifty miles east of and tributary to Ashland, is shipped from the mines to Ashland over the Wisconsin Central and the Milwaukee, Lake Shore and Western Railroads, and by vessels from their mammoth ore docks, the largest in the world and built at a cost of nearly one million dollars. All Lake Superior steamboat lines stop here and steamers run twice a day to Washburn, Bayfield and Madeline Island. Telephone communication with surrounding towns. BARABOO. The judicial seat of Sauk county, is an important and flourishing city, located on the main line of the C & N. W. Ry., 175 miles from Chicago,

119 from Milwaukee and 230 from St. Paul. It is headquarters for the Madison division of the great Northwestern system, and the round house and machine shops for the division are located here. Some four or five hundred railroad men and division officers are residents, and the amount paid them averages \$35,000 monthly. The Baraboo river runs through the city, and furnishes abundant power for driving numerous manufacturing establishments. The city contains 11 churches, 2 banks (one national), 2 flouring mills, a woolen mill, a foundry, 2 planing mills, 1 first-class hotel, a court house, 3 commodious public school buildings, a finely appointed opera house, the second largest in the State, a well equipped and efficient fire department, and the Baraboo Water Works Co. supply water to the public through a series of pipes extending to all parts of the city. It is lighted by gas, and the Edison method of electric lighting has been successfully introduced. The press is represented by the *Baraboo Republic*, the *Sauk County Democrat* and the *Baraboo News*, all enjoying a good circulation throughout Sauk and adjoining counties. Baraboo is built on a series of hills, 1,950 feet above sea level. The scenery around is very beautiful. The celebrated Devil's lake is 3 miles south, and the weird and delightful dells of the Wisconsin are within a short drive. During the summer season thousands of tourists and pleasure seekers pass through the city in going to and from these famous resorts. A new Masonic hall, to cost \$30,000, will be erected in the near future, and a \$10,000 Y. M. C. A. building has recently been built. For a place of its size and population there cannot be found one anywhere in which the people are more alive to their higher interests, and in which the necessities, comforts and luxuries of life in all conceivable forms, are more easily obtainable than they are here, and no other city offers greater inducements to honest capital and honest labor. Tel., W. U. Exp., Am. Population, 5,000. David E. Welch, postmaster.

BELOIT. Is built on both banks of Rock river, which is spanned by three bridges, from which a delightful view may be obtained, and is a thriving incorporated city on the C., M. & St. P. Ry. at the crossing of the C. & N. W. Ry. in Rock county, 81 miles southwest of Milwaukee, and 14 south of Janesville, the seat of justice. The excellent water power here obtainable has been one of the main factors in the prosperity of the city. Beloit now contains a wind-mill, pump and tank factory, 2 wood working machine factories, a clutch pulley manufactory, the Williams Engine Works, 2 paper mills, the Beloit Iron Works, agricultural implement works, a scale factory, a sash, door and blind factory, paint and carriage shops, planing and flouring mills, a foundry and machine knife factory, a paper pulp factory, glove and mitten factory, overall, shirt and pants factories, a shoe factory, a number of cigar factories, etc. The products of the above form the principal shipments. The educational facilities comprise Beloit College, covering an area of 25 acres, with 8 buildings, including a library (15,000 volumes) and a gymnasium, and good public schools, the latter employing 20 teachers. Eleven churches minister to the religious wants of the people; they represent the following denominations: Congregational, Episcopal, Methodist Episcopal, Baptist, Christian, Catholic, Presbyterian, German and Norwegian Lutheran, and German Presbyterian. Two newspapers, the *Free Press* (daily and weekly), and the *Citizen* (daily and weekly), are published. The city is lighted by electricity and gas, has an excellent system of water works and an efficient fire department, 3 banks, 2 good hotels, an opera house, and several smaller halls. Bonded debt, \$56,000, assessed valuation of real and personal property, \$2,000,000. Exp., Am. and U. S. Telephone Exchange. Tel., W. U. Population, 7,000. Cham. Ingersoll, postmaster.

kosh. It was incorporated as a city in 1857, is steadily increasing in size and importance, and now contains a boot and shoe factory, saw and planing mills, a brewery, a cigar factory, a washboard factory, whip, glove and mitten factories, machine works, flouring mills, brick and tile works, tanneries, butter tub and egg case factories, also a new creamery and electric light and power plant, 1 bank, a handsome, commodious and well appointed opera house, telephone exchange, a well equipped and efficient fire department and numerous large and well stocked special and general stores. Its religious and educational facilities are excellent, its schools having an enviable reputation throughout the state. Valuable granite quarries are in the vicinity, yielding durable and beautiful material for building and adding considerably to the business of the city. Berlin is one of the principal cranberry shipping points in Wisconsin, great attention being paid to the culture of this much-sought-for fruit. The press is represented by the *Courant*, *Journal* and the *Dairymen's Exchange*. During the season of navigation steamers make daily trips to Oshkosh; and stages run to Wautoma, Pine River, Oshkosh, Plainfield and Waupaca. Exp., Am. Tel.,

BRODHEAD. Dating its settlement
from 1856, and incorporated in 1870, is a
prosperous village located on the C. M. &
St. P. Ry, and on Sugar river, in Green
county, 16 miles east of Monroe, the judi-
cial seat, 30 south of Madison, and 90
southwest of Milwaukee. It contains Bap-
tist, Catholic, Congregational, Methodist,
Evangelical, Episcopal and Presbyterian
churches, good schools, a bank, 2 opera
houses, 2 first-class hotels, large plow and
agricultural implement works, carriage,
omnibus and hearse factories, a flour mill,
a creamery, machine shop and the usual
number of stores, etc., for a place of its
size. The press is represented by 2 week-
ly newspapers, the *Independent* and the
Register. Good farming lands surround
the village and can be purchased from \$50
to \$75 per acre. Sugar river furnishes
especial interest here as being the first
place to furnish the wonderful fresh
water pearls of Wisconsin, and this indus-
try is successfully prosecuted here. Large
quantities of hogs are raised, and with
butter, cheese, grain, flour, tobacco and
the products of the above mention fac-
ories form the shipments. Brodhead has a
good fire department and the city is light-
ed by electricity and has a public telephone.

Ry, and on the Wisconsin Central Line, in Racine county, at the confluence of the Fox and White rivers, 27 miles southwest of Racine, the county seat, 42 southwest of Milwaukee, and 72 northwest of Chicago. Splendid water power is obtained, but is little utilized. The industries comprise a large flour mill, brick and tile works, a planing mill, a sorghum mill, farm implement and machine shops, a brewery and a cheese factory, and the products of the above with grain and live stock constitute the shipments. Baptist, Congregational, German Methodist Episcopal, Catholic, Episcopal and 2 Lutheran churches, Lutheran and German Catholic schools and a public school with six teachers are sustained. The Catholics are preparing to build a church which together with the parsonage, will cost in the neighborhood of \$32,000. Two weekly newspapers, the *Standard Democrat* and the *Free Press*, are published, a bank is located here, and 3 hotels cater to the wants of the traveling public. It has a bonded debt of \$21,000, which was voted in order to put in a water plant, and water is now secured from an artesian well whose analysis proves stronger than the famous Waukesha water. Assessed valuation of real and personal property, \$1,500,000. Stage daily to Watford. Population, 2,200. Tel., W. U.

DE PERE. A prosperous and enterprising incorporated city, situated at the head of lake navigation on Fox river, and 5 miles from its mouth. The river presents a magnificent power of from 3,000 to 4,000 horse power at this point, and gives factories the unique advantage of a cheap power at one end and lake navigation at the other, with water communication with all lake ports. The C. & N. W. and the C. M. & St. P. Rys pass through De Pere. November 11, 1890, the Shattuck & Babcock Co (capital stock \$500,000, John A. Kimberly, C. B. Clark, and F. C. Shattuck incorporators), paid \$100,000 for the greater part of the water power and at once began preliminary work on the largest mills in the West for the manufacture of the finer grades of paper. The plant includes soda and sulphite pulp mills and employs from 300 to 500 hands. In the spring of 1891 the C. & N. W. Ry, built side tracks from the east to the west side of the river, at a cost of \$50,000. Three flowing artesian wells furnish an abundance of pure water for domestic use and fire protection, and the city is well provided with sewers. De Pere possesses 4 newspapers the *News* (Rep.), the *Standard* (Holland), the *Volkston* (Holland), and the *Brown County Democrat*. The city contains two high schools, diplomas from which entitle graduates to admission to the State university without examination; 11 churches, 4 hotels, 2 public halls, 2 elevators, 2 flour mills, 1 charcoal blast furnace, 1 foundry and machine shop, 1 sash, door and blind factory; 6 distilleries, 3 lime stone quarries, 1 tile factory, 1 vase and flower pot factory, 1 saw mill, 1 pump factory, 1 pleasure boat factory, 1 cooper shop, 1 hay press and warehouse, 2 cigar factories, 1 cabinet shop, and the mammoth paper mills. The products of the above mentioned factories, and brick, draft horses, country produce, grain and hay constitute the shipments. During 1890 100,000 tons of coal, salt and general merchandise passed through the government.

DODGEVILLE. A thriving, incorporated city, near the center of Iowa county, of which it is the judicial seat, is an important station on the M. div. of the C. & N. W. Ry and on the I. C. Ry, of which it is the terminus. Its settlement dates from 1826, incorporated as a village in 1858 and as a city in 1889. It is located 47 miles west of Madison, 129 southwest of Milwaukee and 8 from Mineral Point. The city contains 3 banks, an excellent high school and good public schools, and churches of the following religious denominations: Methodist, Congregational, Primitive Methodist, Presbyterian, Baptist, Evangelical and Catholic. Three weekly newspapers are published—the *Chronicle*, the *Sun* and the *Eye and Star*—and keep the citizens well informed on all current topics of interest. The manufacturing interests consist of agricultural implement and wagon works, flouring and planing mills, a creamery, and a smelting furnace. Land in the vicinity is worth from \$50 to \$65 an acre, and large quantities of grain, live stock and dairy products are shipped. Considerable attention has lately been given to the rearing and breeding of fine stock in this locality, and this industry, notably that of trotting stock is rapidly advancing. The city has excellent hotel accommodations, is well represented in well stocked stores, etc. Lead and zinc mines are in the vicinity, and conduce quite materially to the general interests of the city. Stages daily to Mineral Point; fare, 50 cents. Exp., Am. Tel., W. U. Population, 1,800. Albert S. Hearn, postmaster.

EAU CLAIRE. Is a flourishing city, beautifully located on both sides of the Chippewa and Eau Claire rivers, in the central portion of Western Wisconsin. It

is the seat of justice of the county bearing the same name, and is 321 miles northwest of Chicago and 84 east of St. Paul. Its name is of French derivation and signifies "Clear Water." The main portion of the city is about 31 feet above low water mark of the Chippewa river, the latter is 180 feet above Lake Michigan, which in turn is 559 feet above the sea, making the situation of the city 769 feet above the level of the ocean. Its area is 16 1/2 square miles. The soil is a sandy loam and is formed for the most part of disintegrated potsdam sand-stone, with vegetable mold in its composition. It is, as stated in an American supplement to Chambers' Encyclopedia, the center of traffic for a radius of 75 miles. The C. St. P., M. & O. Ry., the C. L. M. & St. P. Ry. and the Wisconsin Central line, which is now a part of the Northern Pacific system, all having branches extending in various directions, including those of the pine, hardwood and mineral regions of the North, afford transportation facilities possessed by but few cities. The chief water power is supplied by the dam across the Chippewa river, giving eighteen feet head. The dam on the Eau Claire river supplies the lumber and other mills with power. The Eau Claire river empties into the Chippewa river at this point. These rivers, spanned by ten bridges, are thickly studded with numerous manufacturing institutions, consisting principally of a dozen large saw mills, 3 foundries, a pulp and paper mill, a refrigerator factory, a sash and door factory, a linen mill, a factory for the manufacture of dynamos and other electrical appliances, a furniture factory which places 1,200 quites a month on the market, a brewery, grist mill and brick yard. The following statistics will convey in most a concise and definite form, information concerning the status of business of Eau Claire during the past year:

Water Works Company—Four men, wages \$3,200; 25 miles pipe and 35 hydrants.

Telephone Exchange—Five employes, wages \$2,400; 225 miles of line and 265 subscribers.

Gas Company—Ten employes, wages \$6,000; 12 miles of mains.

Total earnings of railroads, \$700,000.

Six cemeteries, 2 owned by the city and four by various religious bodies; an opera house costing \$60,000, with a seating capacity of 1,200. Eau Claire is said to be the largest lumber manufacturing center in the world. It manufactures annually 300,000,000 feet of lumber, the bulk of which is floated down in rafts from the mills to Chippewa river to mouth on the Mississippi river. It has 25 miles of water mains, 3 electric light companies, electric fire alarm system, 3 fire-escape hobs, 3 public parks, a sewage system, paved streets, numerous beautiful churches, and excellent schools, a fine hospital under the care of the Sisters of Mercy which has just been completed, free public library, water exposition building and race track, plenty of water power which can be had on favorable terms. It has telephone offices

tions with all surrounding towns. A noted characteristic of this climate is its dry, pure atmosphere, which for healthfulness is unexcelled, and is especially favorable to those affected with consumption and other pulmonary troubles. The soil is porous, and the street grades are good but not precipitous, which gives the city unsurpassed natural drainage. There is an abundant supply of fine water. Population, according to U. S. census in 1880, was 10,118; according to U. S. census in 1890, 17,451. The city of Altoona, a mile and a half from the western limits of the city, has a population of 799, and the suburban villages of Porterville and Belger's Mills a population of 750, making a total of 19,009. The free carrier system is in vogue. The Chippewa river is the second largest river in the State, and its great valley, with its numerous streams, proffers an inexhaustible and readily accessible supply of all kinds of hardwood timber for manufacturing purposes. There are the different varieties of maple, oak, birch, elm, hemlock and bass, all in boundless quantities. Freight rates on manufactured articles are as favorable as those of any city in the Northwest, not excepting St. Paul or Chicago. The advantageous natural location of Eau Claire, its favorable condition from a sanitary, social and commercial point of view render it singularly adapted for the investment of capital for manufacturing enterprises. The city makes steady progress every year, and within the last few years there has been built the McDonough Manufacturing Company's foundry, the Eau Claire Sash and Door Company's factory, the Pioneer Furniture Company's factory, the Eau Claire linen mill, the Eau Claire Refrigerator Company's factory, the National Electric Manufacturing Company's factory, all institutions founded on a solid basis and paying large returns upon the investment. The city has more capital invested in manufacturing and ships more freight by rail and water than any other city in the state except Milwaukee. Liberal inducements will be made for the location of manufacturing enterprises. Those desiring further particulars are requested to correspond with H. C. Putnam, President of the Eau Claire Commercial Syndicate and President of the Chippewa Valley Bank. Tel., W. U. Exp., Am. and Northern Pacific; W. W. Winterbotham, postmaster.

EAU CLAIRE, WISCONSIN.

A NEW BOOK

By THOMAS M. SIME, M. D.

A Treatise on Typhoid Fever and Pneumonia
INCLUDING OTHER DISEASES.

Sold by subscription; made up from careful notes taken by the author in Twenty Years' Experience in an active practice. In Typhoid Fever, the doctor gives 22 clinical cases with the temperature, state of the pulse and the medicines administered each day during the patients' illness. The same course is pursued in treating Pneumonia, and the doctor shows by these clinical cases that he can avert either of those diseases and restore the patient in perfect health in from 60 to 20 hours. The book is a veritable *code medica* and almost indispensable to a family. The practicing physician will also find it valuable. Price in Cloth \$2.50; Cloth with Leather Back, \$1.50. Will be sent on receipt of price to any point in the United States or Canada, postage or expressage fully paid.

FOND DU LAC. The judicial seat of Fond du Lac county, is pleasantly located at the southern extremity of Lake Winnebago, 63 miles northwest of Milwaukee, and 148 northwest of Chicago. It is possessed of exceptional transportation facilities, unequalled by any city of its size in the State; it has communication by water through Lake Winnebago, down the Fox river, and thence into Green Bay, connecting it with the whole chain of lakes. It is on the C. & N. W., the C. M. & St. P. Rys, and Wis. Cen. Line, which, centering here and radiating to all parts of the United States, give it all the advantages of its western sister cities in the sale of its manufactures in the eastern markets, the competition afforded by the steamboat lines being instrumental in regulating and reducing rates. This city was one of the earliest lumbering towns in the State, and, although the supply of pine has been exhausted there is a large quantity of valuable hardwood timber in the vicinity, which is now being utilized for manufacturing purposes. The city contains foundries and machine shops, wagon works, plow works, sash, door and blind factories, large lumber mills, large yeast factories, molding and frame factories, boiler works, planing mills, agricultural implement works, carriage and wagon factories, carriage and buggy top factories, flouring mills, woolen mills, breweries, file works, drain tile

works, chemical works, steam bakery and cracker factory, paper box and furniture factories, etc. There are 4 banks (2 national), a handsome and commodious court house, erected at a cost of \$85,000, first-class hotels, 2 public halls, telephone exchange, efficient police and fire departments, a free library, 2 opera houses, churches representing the leading religious denominations, excellent schools, handsome business blocks and private residences, and all the facilities and appointments of a first-class city. The streets are wide and well paved, and are lighted by electricity and gas. Among the great advantages possessed by Fond du Lac is its pure, soft, deep fountain water, which is by many considered to equal the famous Bethesda Spring. A water works company is in full operation, the water being drawn from artesian wells, which afford an inexhaustible supply. The press is represented by 2 daily newspapers, the *Reporter* and the *Commonwealth*, and 5 weeklies, the *Saturday Reporter*, the *Weekly Commonwealth*, the *Courier*, the *Journal* and the *Völk's Zeitung*. Exp., Am. and N. P. Tel., W. U. and Postal-Cable. Population, 13,000. James T. Greene, postmaster.

THE BRADWAY HOTEL, New House, Elegantly Furnished, Wisconsin, West Superior,

198 north of Chicago, 155 northeast of Madison, and 49 northeast of Oshkosh. It is separated from the city of Ft. Howard by the Fox river, was first settled in 1603 by French missionaries and traders, and is the oldest settlement in the State. It became a U. S. garrison in 1816, received a village charter in 1838 and a city charter in 1854. Brown county was organized in 1826, when the county seat was located at De Pere, but it was removed to Green Bay a few years later. The vicinity has developed into one of the finest agricultural and grazing districts in the State. The business of raising blooded horses—Norman-Percheron—from stock imported by R. B. Kellogg, has been largely engaged in by him and others, both for home and other markets. Exceptional transportation facilities are offered by the M. & N. R. R., the C. & N. W. Ry and the G. B., W. & St. P. R. R. The city is the terminus of the Goodrich Transportation Co.'s line of steamers, giving two regular boats per week from Chicago and Milwaukee, bringing a large number of pleasure seekers, beside freight. Hart's Steamboat Line, owned by a local company, run three splendid passenger boats, furnishing a daily line between here and Mackinac and intermediate ports, including Sturgeon Bay, Marinette, Menomonee, Escanaba, Fayette, Nahma and Garden Bay, and connecting with passenger steamers for lower lake ports. Another line of large freight steamers plies between here and Buffalo. The city enjoys a large wholesale trade in groceries, drugs, crockery, fish and other articles. S. J. Murphy & Sons have here one of the largest lumber, shingle, lath and planing mill establishments in the State. D. W. Britton employs about 60 men in the manufacture of pork, pickle, scrup and fish packages, his cooperage plant being one of the most extensive in the country. He ships to ten different States, including Missouri river points, Minneapolis, St. Paul, and as far south as New Orleans. There are 4 large breweries, manufacturing beer which is shipped to great distances. Two sound and reliable banks, with an aggregate capital of \$100,000, have universal confidence. The hotels are exceptionally fine and numerous, with prospect of a new summer hotel for pleasure seekers. Several mineral springs located here are becoming famous for the curative virtues of their waters, which are shipped bottled and in bulk, and in the form of various pleasant drinks, to

all surrounding places. The city and Ft. Howard are supplied with the purest of water for domestic use and extinguishment of fires by first-class water works, drawing their supply from artesian wells about 1,000 feet deep. The newspapers are the *State Gazette* (Republican, daily and weekly), the *Advocate* (Democratic) and *Evergreen* (German), both weekly. The educational facilities are the very best. The public schools are of a high character, and McCann's Business College is the leading institution of its kind in Northern Wisconsin. It draws pupils from other States and has a high reputation. There are numerous parochial schools, under Catholic and Lutheran management. The cathedral and bishop's residence of the Catholic See of Green Bay is located here, also a Catholic orphan asylum. An Odd Fellows' Home has recently been purchased and fitted up in good style. There are 16 churches, embracing almost every shade of belief. The city is lighted by both gas and electricity. Other manufactures are sash doors and blinds, 2 establishments; laundry and toilet soap, carriages and sleighs, machinery and castings, 2 flouring mills, 2 broom factories, spice mills, etc. Stages in the winter connect with Sturgeon Bay, Kewaunee and other places off the railroad lines. The assessed valuation of real and personal property is about \$2,000,000. Population, 10,500. Tel., W. U. Exp., Am and U. S. Telephone connection. A. C. Robinson, postmaster.

JANESVILLE. Located nearly in the geographical center of Rock county. First settled in 1835, and incorporated in 1853, and was made the seat of justice of Rock county in 1839. It is 91 miles northwest of Chicago and 71 southwest of Milwaukee. Janesville is on the main line of the Chicago & Northwestern Railway to St. Paul, and is the end of a division on that road which also has its machine shops located at this point. Janesville is also on the Mineral Point division of the Chicago, Milwaukee & St. Paul Railway. The shipping facilities are among the best in the State, a system of side tracks being laid to the door of nearly every manufacturing establishment. The city is provided with

fine water power afforded by Rock river which flows diagonally across the city. The buildings of the city are mostly brick and are solid and handsome structures. A first-class system of water works, and an efficient fire department are ample security against fires. The city has gas and electric light works, street car lines, fire alarm telegraph, a military organization, a G. A. R. post and numerous secret and benevolent associations. Prominent among its benevolent institutions is the city hospital, attended by all the physicians in the city. Janesville will compare favorably with other cities of like population in the number, variety and quality of its places of religious worship. It has 12 church edifices, owned and occupied by the various christian denominations. It has a free public library containing over 5,000 volumes. It has seven public schools, a Catholic school (St. Joseph's Convent) and a German Lutheran school. Tobacco raising, now one of the leading industries of Rock county, is of immense value to the city, and has given rise to the establishment of numerous wholesale and jobbing houses in leaf tobacco. Importing and breeding of draft and coach horses is also one of the features of the city, there being several firms engaged in this business. The manufactures, which are extensive, comprise the Janesville Cotton Mills, employing over 400 hands, wooden mills, several flour and feed mills, agricultural implement works, furniture factories, knitting works, 2 planing mills, 2 soap factories, 4 breweries, several carriage and wagon works, cigar, lumber and box factories, machine shops, a fertilizer factory, 3 shoe factories, a blank book manufactory and many more, too numerous to mention. The adjacent prairie land, which is extremely fertile, is valued at from \$50 to \$100 per acre. The city contains 3 parks, a Turkish bath house and several public halls. The press is represented by the *Gazette* and the *Recorder* (daily and weekly), the *Signal*, the *Journal* and the *Tobacco Leaf* (weekly). Janesville has in fact all the attractions, bustle and activity of larger and more pretentious cities, while its manufacturing interest discount those of cities several times its size. Stages daily to Rock Prairie, Johnson, Richmond, Emerald Grove and Fairfield. Telephone connections with surrounding points and with Chicago and Milwaukee. Assessed valuation of real and personal property, \$1,134,104. Bond-

ed indebtedness, \$12,000. Exp., Am., Adams, and Wells, Fargo & Co. Tel., W. U. Population, 12,000. Charles E. Bowles, postmaster.

JEFFERSON. A flourishing town located at the confluence of the Rock and Crawford rivers, and on the C. & W. Ry, in the center of Jefferson county, of which it is the judicial seat, 15 miles west of Milwaukee, and 13 south of Watertown. It contains flour and woolen mills, foundries and machine shops, a large boot and shoe factory, a packing house, a furniture factory, an agricultural implement factory, a drain tile factory, 2 tanneries, brick yards, boiler works, a washing machine factory, a grain elevator, 1 cigar factory, a weekly newspaper and 1 brewery. Rudolf Heeger, proprietor of the City Brewery, has quite recently erected an expensive and commodious brewery and malt house, in order to meet the demands of his increasing business. There are also a number of special and general stores, mechanic shops, 2 banks and good hotel accommodations. Religion is represented by Catholic, Lutheran, Methodist and Universalist churches. There are good public schools. It is the receiving and distributing point for a rich section of the country, and is rapidly growing in size and importance. The city is protected from fire by a well equipped and efficient fire brigade. Population, 3,990. Tel., W. U. Exp., Am. Frank P. Kiepert, postmaster.

KENOSHA. A pleasantly located and prosperous city on the shore of Lake Michigan and on the Milwaukee div. of the C. & N. W. Ry, at the junction of the K. & R. div. of the same system. It is located in the eastern part of Kenosha county, and is the judicial seat of the county, 31 miles south of Milwaukee and 51 north of Chicago. It was incorporated as a village in 1841 under the name of Southport, which name was changed to Kenosha a few years later. It has one of the finest harbors on the lake, and its marine shipping facilities are destined to a very large growth. Already some of the best lake craft are owned by its capitalists, and its fine natural advantages are attracting the attention of manufacturers and shippers. Its manufactures, already numerous,

ILLINOIS CENTRAL R. R. Short and Direct Route from CHICAGO, SOUTH.

have recently received large additions and are growing rapidly. They comprise farm and traffic wagons, leather, coatings, thimble skeins, machinery, wire mattresses, watch cases, brass goods, nut and beer, malt extract, furniture, flour, cribs, cradles, carriages, lumber, sash, doors and blinds, pumps, boats, tile, brick and flax. It contains 2 banks, 19 churches, good schools, a public library, opera house, court house and city hall, a daily newspaper, the *Gazette*, and 4 weeklies, the *Leader* (Rep.), *Union* (Dem.), *Telegraph-Courier* (Rep.), and the *Tribe* (Dem.). There are the usual number of business houses, etc., in a city of its size, and the business men are noted for their stability and thrift. The minor branches of commerce flourish and are springing up in varied forms. The city enjoys a fine system of waterworks, which, with the aid of a thoroughly equipped and efficient volunteer fire department, renders it perfectly safe from a serious conflagration. Over \$3,000,000 are invested in manufactures, employing 1,150 men, and turning out \$7,500,000 worth of goods annually. A manufacturing interests are flourishing and enlarging, and the growth in this direction the past year has been specially marked. The Penoyer Sanitarium Co. have recently erected a commodious and handsome building. It is elegantly furnished with every modern convenience, has accommodations for 100 patients, and is surrounded by 75 acres of tastefully laid out grounds. The bonded debt, under which the city labored for many years, is settled and in rapid process of liquidation. Taxes are lower than in almost any city of its size in the State. Extensive improvements in the city are in progress, and are being paid for as they are made. The American and U. S. Express Cos. and the W. U. Tel. Co., with eight passenger trains each way on the C. & N. W., and two on the K. & R. Ry., connect the city with the outside world. Telephone connections. Population, 8,600. D. A. Mahoney, postmaster.

LA CROSSE. Situated in county of same name, at the confluence of the La Crosse and Black rivers with the Mississippi. The site of the original city was surveyed in 1812, but it was not incorporated until 1836, at which time it had a population of only 3,000. The census of 1890 gives its population as 25,221, and places it as the second city in the State. For several years the staple industry was the manufacture of lumber, a business which is still carried on to a large extent, over 300,000,000 feet of logs being annually manufactured by its 13 saw mills, into lumber, lath and shingles, but while the annual out-put shows no signs of diminution its relative proportion to the other manufactures is rapidly decreasing. This increase is manifested more in the extension of existing establishments than in the introduction of new ones, and the steady and of late years unexampled growth, has been owing more to the capital and enterprize of its own citizens than to adventitious introduction from without. In addition to its saw mills there are extensive and flourishing foundries, machine shops, boiler works and marine ways, cigar, furniture, cracker and soap factories, 3 knitting works, the best equipped carriage works in the Northwest, a large tannery; it has fine large breweries, 7 cooperages, and its flour mills have a daily capacity of 2-500 barrels; there are also several works for the manufacture of plows and other agricultural implements and a large paper mill, recently erected, from all of which the aggregate value of goods manufactured during the year 1889, was nearly \$14,000,000. La Crosse also carries on an extensive jobbing business, having for a

market western Wisconsin, northern Iowa, southern Minnesota and the States of North and South Dakota. The city owns its own water works and has the most substantial and convenient school buildings and the most efficient system of public schools that can be found anywhere. Its transportation facilities are unexcelled. The La Crosse division of the C. M. & St. P. Ry places it in direct communication with Chicago. The Southern Minnesota, Dubuque and river divisions of the same road open a highway through Iowa, Minnesota and Dakota, and the Wisconsin Valley and Chippewa Valley divisions afford access to the pine and hardwood regions of Wisconsin. The C. & N. W. Ry, with its various divisions, develops extensive territory. The G. B., W. & St. P. R. R. brings La Crosse in contact with lake navigation, over 200 miles nearer tide water than Chicago. The C. B. & N. R. R. traverses the territory on the east bank of the Mississippi, as those already mentioned occupy the west, and the father of waters itself, during the season of navigation, is a not unimportant factor in the problem, there being 69 vessels enrolled in the custom house of the port of La Crosse. Since the last issue of the Gazetteer the city has made rapid strides. The public library has been enlarged, and now contains nearly 15,000 volumes, the new government building has been completed and occupied, a new opera house has been built, which is acknowledged to have the most handsome interior in the Northwest, and the building operations of 1889 added over two million of dollars to the value of the real estate of the city. The city possesses great attractions for residence; it is well paved, well watered, the residence portion beautifully planted and well kept; its educational advantages are kept up to a high standard, and Oak Grove Cemetery, with its wealth of floral decoration, will compare favorably with those of the largest cities. It has 32 churches, several opera houses and music halls, and these, in connection with several social and literary societies, adequately minister to the religious, mental and moral cravings of the inhabitants. There are 4 daily papers, the *Republican and Leader* and *Times* (Rep.), the *Daily Press* (Ind.) and the *Evening Chronicle* (Dem.), which also publishes a weekly edition; there are three other weeklies, the *Nord Stern* (Rep., German), the *Frederick* and *Emigrants* (Rep., Norwegian), and

the *La Crosse News* (Ind.). There are several first-class hotels, among which may be mentioned the Cameron House, at the C. M. & St. P. depot, and the Law Hotel, at the C. B. & N. depot. Tel., W. U. and N. A. Exp., Am. and U. S. Mail, daily to all parts east and west. R. A. Scott, postmaster.

Ry, and is a flourishing village in Walworth county, 10 miles from Elkhorn, 33 from Milwaukee, and 72 from Chicago. It is one of the loveliest summer resorts in the country, and the shores are dotted with villas erected by wealthy Chicago merchants, and several large steamers and a fleet of row boats are in constant readiness to convey picnic parties to different points on the shore. The lake affords excellent water power utilized by flouring and oatmeal mills and an agricultural implement factory. The products of the above, with pork and wool, form the shipments. Several good hotels cater to the wants of the traveling public, and the city contains 6 churches, representing as many denomina-

tions. Good public schools, an opera house, 2 banks and 2 weekly newspapers, the *Herald* and the *News*, each also publishing a daily edition during the summer months. Land is valued at \$30 to \$70 per acre. Stages to Springfield to meet all trains; fare, 50 cents. Exp., Am. Tel., W. U. Telephone exchange. Population, 3,000. George E. Read, postmaster.

LANCASTER. The judicial seat of Grant county, in the central portion of which it is situated, 86 miles southwest of Madison, 166 southwest of Milwaukee, and 251 northwest of Chicago, is a station on the C. & N. W. Ry, and is one of the most beautiful and beautiful towns in the State. Its educational and religious facilities are excellent, and consist of good graded schools, a high school, Baptist, Congregational, Methodist Episcopal, Catholic and Lutheran churches. A flourishing Ladies' Art Club is sustained, and in all respects educationally as well as socially, Lancaster ranks foremost among the towns of its size in the State. Besides the usual number of special and general stores and a thorough representation of the learned professions, the city contains machine shops, a carriage factory, a creamery, a ash, door and blind factory, brick yard, smelting furnace, an excelsior factory, good hotels, 2 banks and 2 weekly newspapers, the *Grant County Herald* and the *Tele*, which keep the citi-

zens informed on all current topics of interest. The adjacent country consists chiefly of rolling prairie land, which at Lancaster is broken by hills and valleys. A great diversity is thus given to the landscape, and some of the loveliest scenery in the State is to be found here. The soil is a rich loam, well calculated for the growth of all the cereals, which, with some garden produce and live stock, form the chief shipments. Stages to all surrounding points. Population, 1,750. Tel., W. U. Exp., Am. Theodore A. Burr, postmaster.
